

## Appendix F: List of Roads by Alternative

Roads with more than one prescription listed indicate that segments of the road are being proposed for multiple prescriptions. Please refer to the maps found in appendices A, D, and E to see what segments of roads are being proposed to stay open, be decommissioned, or closed for public access. For mileage of a given road, please refer to Appendix A. Also, roads labeled as “Road improvement” are *not* analyzed in this NEPA document, and are depicted on the maps as roads remaining on the Forest’s transportation system.
